What's Happening Now

The study team is finalizing the responses to comments submitted during the Draft EIS phase while continuing further study of the suggested new and existing alternatives. As we do so, changes to the EIS document, the alternatives, and UDOT's preferred alternative may occur. As a reminder, all comments will be responded to in the Final EIS document, which is expected to be released late this summer.

To effectively respond to all comments, the WDC team continues to meet with state and federal agencies, cities, property owners, and other stakeholders. We are carefully considering all community and environmental impacts as we seek to meet the transportation needs. If you'd like to meet with a representative of the study team, feel free to contact us at 877-298-1991 or westdavis@utah.gov.

Next Steps

Once UDOT finalizes all of the responses to the Draft EIS comments and all associated analysis and revisions are complete, the Federal Highway Administration (FHWA) will conduct its review and make its recommendation for a preferred alternative. This recommendation will be included in the Final EIS, to be released late this summer, along with responses to all comments and any revised or new information. A Record of Decision, which identifies FHWA's preferred alternative, is anticipated by the end of this year. Please be aware that this schedule is subject to change depending on the outcome of the updated analysis and reviews.

Questions? Concerns?

For specific questions, or if you would like to speak to a study representative, please contact a member of the project team at 877-298-1991 or westdavis@utah.gov.

Stay Involved and Informed

We invite you to keep learning about the EIS process and to be involved in the West Davis Corridor Study. Please visit www.udot.utah.gov/westdavis for all the latest updates, information and ways you can be involved.

On our website you can:
